

ADVANCED AUTOMATION SOLUTIONS

Advanced Automation for your Reliable Heavy Duty Vibratory parts feeding

We are proud to offer unique Heavy Duty Vibratory feeding solutions to meet your material handling needs. Standard lengths range from 18" to 60". These linear vibratory drives can be used for high speed part specific tooling or large bulk transfer with part or scrap sorting applications. Our rugged construction along with stress relieving key drive components guarantees extended reliability. All of our versatile vibratory feeding products are sized and configured to suit your specific requirements.

Features:

- *Bolt in hardened tooling
- *Solid state speed controller
- *115vac powered electromagnetic drive
- *Low noise production
- *Rugged dependable construction
- *Prime reliability

Benefits:

- *Gentle parts handling, minimal part drops
- *Capable of feeding large and small parts

Options:

- *Chose between 18" to 60" long models
- *Part specific quick change tooling
- *Sound control packages

Advanced Automation Solutions is dedicated to offering courteous and timely responses to our customer's needs. Furnishing quality equipment at competitive pricing. No project is too big or too small. Put us to the test. Our sales and engineering personnel are ready to assist you.
